## Zombie Health

André Santanchè

Laboratory of Information Systems – LIS

Institute of Computing – UNICAMP

February 2018

# Facts

- Blood test
  - 20% die
- Bacterial Infection - *Cyanobacterium zumbi*
  - without treatment 95% die
  - death in 4 days
- Viral infection
  - without treatment 60% die
  - death in 8 days
- There is no recurrence of the same kind of infection
- Wrong treatments kill the zombie

# Part 1

# Boorth Teppeeth

- yellow tong
- paralysis

# Boorth Tepppeeth

- yellow tong
- paralysis

**bacterial infection**

# Read Rait

- chest pain

# Read Rait

- chest pain
- History?

# Read Rait

- chest pain
- History: bacterial infection

**viral infection**

# Part 1 and 2

# Marth Seack

- yellow tong

# Marth Seack

- yellow tong
- Blood test?

# Alnall Aibresk

- chest pain
- member loss

# Alnall Aibresk

- chest pain
- member loss
- Bite deficit?

# Alnall Aibresk

- chest pain
- member loss
- Bite deficit?
  - what happens if I am wrong?
    - e.g., if the member was lost in a fight

## Alnall Aibresk (Part 2)

- chest pain
- member loss
- Bite deficit?
  - what happens if I am wrong?
    - e.g., if the member was lost in a fight
- May I consider the time?

## Alnall Aibresk (Part 2)

- chest pain
- member loss
- Bite deficit?
  - what happens if I am wrong?
    - e.g., if the member was lost in a fight
- Can I consider the time?
  - Viral Infection
    - member loss - 5 days
    - die - 8 days

# Chorrepp Tastnalk

- chest pain
- trembling in the little finger

# Chorrepp Tastnalk

- chest pain
- trembling in the little finger
- Two simultaneous diseases?

# Chorrepp Tastnalk

- chest pain
- trembling in the little finger
- Two simultaneous diseases:
  - bite deficit and viral infection

# Part 2

# Chassepp Goolk

- yellow tong
- member loss

# Chassepp Goolk

- yellow tong
- member loss

Bite Deficit and Viralk Infection?

Viral and Bacterial Infection?

# Chassepp Goolk

- yellow tong
- member loss

Bite Deficit and Viral Infection?

Bite Deficit and Bacterial Infection?

Viral and Bacterial Infection?

Can I consider the time?

# Chassepp Goolk

- yellow tong
- member loss
- both observed in the same day

# Chassepp Goolk

- yellow tong
- member loss
- both observed in the same day

Viral and Bacterial Infection

# Chassepp Goolk

- yellow tong
- member loss
- member loss 10 days after yellow tong

Bite Deficit and Bacterial Infection

# Symptoms

- **Bacterial Infection - Cyanobacterium zumbi**
  - yellow tongue - since the 1st day (100% cases)
  - paralysis - from the 2nd day (100% cases)
  - chest pain - from the 5th day (10% cases)
- **Bite deficit**
  - yellow tongue - from the 5th day (100% cases)
  - trembling on the little finger - from the 3rd day (90% cases)
  - member loss - from the 10th day (100% cases)
- **Viral infection**
  - chest pain - from the 2nd day (100% cases)
  - member loss - from the 5th day (100% cases)
- **Viral + Bacterial Infection**
  - member loss - 1st day (20% cases)
